

# Religious Studies

Welcome to  
Religious Studies at  
Highams Park  
School!

Religious Studies is all about how we think, what motivates us, and what is important in life. In **year 7** you will be encouraged to think about big questions like 'Is there a God?', 'What makes a good community?' and 'What makes does it mean to be fair?'. Through this you will develop skills of thinking for yourself. You will learn to consider different views on what is important in life and compare them to your own.

We study how the main world religions started and the teachings of their founders. You will get to create your own community helping you to develop team working skills. We will look at the life of the Buddha in depth and learn how to ask and explore big, philosophical, questions.
