

Name _____ Class _____ Date _____

1 What changes happen to a woman during pregnancy? Tick (✓) the correct boxes.

- | | |
|--------------------------------------------------|---------------------------------------------------------|
| <input type="checkbox"/> She gets smaller. | <input type="checkbox"/> She gets heavier. |
| <input type="checkbox"/> She needs more food. | <input type="checkbox"/> Her stomach grows much larger. |
| <input type="checkbox"/> Her uterus gets larger. | <input type="checkbox"/> Her hair goes grey. |

2 Circle the things that can damage a developing baby.

alcohol	chemicals	drugs	fruit	meat	medicines	vegetables	viruses
---------	-----------	-------	-------	------	-----------	------------	---------

3 Number the statements in the order that they happen.

- | | |
|-----------------------------------------------------|------------------------------------------------------|
| <input type="checkbox"/> afterbirth | <input type="checkbox"/> cervix widens |
| <input type="checkbox"/> contractions push out baby | <input type="checkbox"/> gestation period |
| <input type="checkbox"/> labour begins | <input type="checkbox"/> baby is fed semi-solid food |

4 a Label the navel on the diagram.

b The navel is best described as:

- | | | | |
|-------------------------------------|---------------------------------|--------------------------------------|------------------------------------------|
| <input type="checkbox"/> a placenta | <input type="checkbox"/> a scar | <input type="checkbox"/> a gestation | <input type="checkbox"/> an armed force. |
|-------------------------------------|---------------------------------|--------------------------------------|------------------------------------------|

5 Tick (✓) the correct boxes:

a A disease that can damage a foetus is:

- | | | | |
|----------------------------------|-------------------------------|-----------------------------------------|-----------------------------------------|
| <input type="checkbox"/> rubella | <input type="checkbox"/> acne | <input type="checkbox"/> athlete's foot | <input type="checkbox"/> stomach upset. |
|----------------------------------|-------------------------------|-----------------------------------------|-----------------------------------------|

b A baby that is born too early is:

- | | | | |
|---------------------------------|------------------------------------|---------------------------------|--------------------------------------|
| <input type="checkbox"/> poorly | <input type="checkbox"/> premature | <input type="checkbox"/> portly | <input type="checkbox"/> prenuptial. |
|---------------------------------|------------------------------------|---------------------------------|--------------------------------------|

c Pregnancy lasts for approximately:

- | | | | |
|-----------------------------------|----------------------------------|----------------------------------|------------------------------------|
| <input type="checkbox"/> 9 months | <input type="checkbox"/> 9 weeks | <input type="checkbox"/> 9 years | <input type="checkbox"/> 52 weeks. |
|-----------------------------------|----------------------------------|----------------------------------|------------------------------------|

d When a foetus is developing, the organ attached to the navel is the:

- | | | | |
|---------------------------------|-----------------------------------------|-----------------------------------|----------------------------------------|
| <input type="checkbox"/> amnion | <input type="checkbox"/> umbilical cord | <input type="checkbox"/> placenta | <input type="checkbox"/> tummy banana. |
|---------------------------------|-----------------------------------------|-----------------------------------|----------------------------------------|

e A mother's milk provides the baby with:

- | | | | |
|---------------------------------|-----------------------------------------|-----------------------------------|---------------------------------|
| <input type="checkbox"/> energy | <input type="checkbox"/> mammary glands | <input type="checkbox"/> microbes | <input type="checkbox"/> teeth. |
|---------------------------------|-----------------------------------------|-----------------------------------|---------------------------------|

I can...

- explain how a pregnant woman should care for her foetus
- recall when and how a baby is born and looked after.
